

Discover and Explore acknowledgements

Arts Award is built upon the vision and hard work of many inspiring individuals, talented young people and successful partnerships.

The development of Arts Award Discover and Explore has been informed by a range of work in recent years, notably research into a children's award for culture and creativity undertaken by Cape UK on behalf of Trinity College London and Find Your Talent in 2009. Trinity College London and Arts Council England especially acknowledge the contribution of the West Midlands Arts Award Consortium who developed and ran a Children's Arts Award regional pilot between 2008 and 2011.

We are also very grateful for the advice and support of professional colleagues, children and young people who shaped the new levels

Including:
